

Frank Traganos (08/01/20)

Frank Traganos was a dedicated cytometrist who worked with Zbigniew Darzynkiewicz from 1974, until 2014 when Frank retired. Frank was originally recruited by Mike Melamed and collaborated with Lou Kametsky doing flow cytometry from very early days. Frank served the Society as Secretary and a council member for several years. Frank was a permanent fixture at ISAC conferences for decades and we will miss him greatly.
